will calmiy stand by and see his jockey pull borses without saying a word. Mr. Leigh may be blameless in the matter, but appearances are against him, and that is the only evidence the judges had on which to base their rulings.

Racegoers journeyed to Monmouth Park yesterday expecting to see that crack Western filly, Belen Nichols, meet the cracks of era filly, Helen Nichols, meet the cracks of the East, and to see The Pepper meet Merry Monarch, Mars, Sir Matthew and others in the Stockton Stakes. In both they were disap-pointed, Helen Nichols and The Pepper were withdrawn from their respective races. While the Association is in all probability in no way to blame for the withdrawal, yet it is bound to hurt their attendance in the end. Cracks are advertised to meet daily, and taces are spoiled because some weak hard. ret it is bound to hart their attendance in the end. Cracks are advertised to meet daily, and races are spoiled because some weak-hearted owner fears he will be tearen. People can place no sort of confidence in the programmes if the Monmouth Association does not take steps to prevent indiscriminate serarching. Owners began to play at this sort of a game at Guttenburg last Winter. The Association promptly made a rule which made it cost owners to percent of the purse to serarch, unless some accident had made it impossible for the horse to race. The Monmouth management might, without adopting any such raise, compel owners to remain in unless their horses are sick or aling. Then owners would not enter without having the slightest intention of starting, and one could be reasonably sure that the horses advertised as starters on the programme would start. As the matter now stands the wholesness ratching gives people the impression that the card is being "padded."

The Law and Order League, having section ample evidence against the Montanian Park Association, has probably retreat for the season.

To Tambien, the crack Western mare, ses-erday won the Great Western Handbeap at Mashington Park. She carried 108 pounds and ran the mile and a haif in 2.332, or 195 fraction behind the record.

My little boy was afflicted with eczema.

Relief, in the great majority of the severest

cases of torturing and distiguring humors, eruptions and diseases, especially of infants

and children, is immediate, and a cure, speedy, permanent, and economical, even

when the disease is complicated with scrofu-

lous and hereditary taints. This is strong language but every word is true.
